

Cleanse

GENTLE, CREAMY CLEANSER

Formulated for all skin types, this hydrating and gentle cleanser contains a fantastic blend of ingredients that effectively cleanse the skin while maintaining optimum moisture levels.

- **Creamy** and **emollient**, this cleanser **will not strip the skin** or leave a tight feeling after use
- Packed with a powerhouse of anti-inflammatory ingredients, including **Geranium Extract, Lavender, Allantoin** and **Aloe**, it helps to **reduce redness, calm sensitized skin, promote healing** and leaves skin soft and smooth
- **Glycerin** and **Triglycerides** **lock in moisture** and **replenish hydration**

Balance

CALMING, RESTORATIVE TONER

Designed to hydrate and cleanse, this toner is the perfect addition to any skincare regimen. Use after cleanser to freshen and balance skin.

- **Glycerin** & **Sodium Hyaluronate** work to **hydrate** and **lock in moisture**, leaving skin feeling soft and supple.
- Alcohol-free **Witch Hazel** **removes excess oil** and **aids in skin healing**
- Anti-inflammatory ingredients, like **Aloe** and **Lavender** **calm irritated skin** and **reduce redness**
- **Peony Root Extract** adds an antioxidant boost which **protects the skin's surface** and **enhances clarity**

Renew

ULTRA-HYDRATING MOISTURIZER

Packed with good-for-skin ingredients that work together to provide anti-aging, hydrating, soothing, restorative, and protective benefits.

- **Ceramides** and **Sodium Hyaluronate** boost the skin's ability to retain water, effectively **strengthening the skin's barrier** and **protecting against moisture loss** leaving the skin more firm.
- **Squalane** and **Joboba Oil** provide moisture in a light-weight oil form that quickly absorbs into the skin **diminishing the appearance of fine lines** and leaving the face feeling plump and supple
- **Squalane** and **Aloe** provide anti-inflammatory properties that help to **calm and soothe redness** associated with sensitive skin
- **Niacinamide** helps **improve the appearance of dull, uneven skin tone, dark spots and even enlarged pores**, while **peptides** work to **aid in the production of Collagen** and **promote a more youthful glow**
